## SUMMER SAFETY

The Beachwood Police Department reports there is a burglary in the United States every 15 seconds. The majority of home and apartment burglaries occur during the day when most people are at work or school. Historically, July and August have the most burglaries.

- Burglars choose an unoccupied home with the easiest access and the best escape routes. “Harden the target,” to discourage entry.

- The garage door is usually the weakest point of entry, followed by the back door. Burglars look inside cars to find garage door openers, keys and other valuables. Keep your garage door shut and your car locked.

- Keep doors and screens locked, especially when spending time in the back yard when no one else is home. When leaving windows open, use the locks (if possible) to prevent windows from being opened wide enough for a burglar to climb through.

- Summertime always brings out bicycle thieves, generally a crime of opportunity. Keep your bicycle locked with garage door closed.

Most importantly, if anyone wanders onto your property asking suspicious questions or claiming to be lost, call the police immediately.
