## BICYCLE SAFETY TIPS

Many bicycle-related crashes resulting in injury or death are associated with the bicyclist's behavior, including not wearing a helmet, riding into a street without stopping, turning left or swerving into traffic that is coming from behind, running a stop sign, and riding the wrong way in traffic. Follow the rules of the road.

- **WEAR A PROPERLY FITTED BICYCLE HELMET**
- **ADJUST YOUR BICYCLE TO FIT**  
*Stand over your bicycle. There should be 1 – 2 inches between you and the top tube (bar) if using a road bike and 3 – 4 inches if a mountain bicycle. The seat should be level front to back.*
- **CHECK YOUR EQUIPMENT**  
*Properly inflate tires and check your brakes.*
- **SEE AND BE SEEN**  
*Always wear neon, fluorescent or other bright colors when riding day or night. Wear something that reflects light, such as reflective tape.*
- **CONTROL YOUR BICYCLE**  
*Always ride with at least one hand on the handlebars.*
- **WATCH FOR AND AVOID ROAD HAZARDS**
- **AVOID RIDING AT NIGHT**  
*Make sure you have reflectors and lights on the front and rear.*

## HEAR SIRENS? PULL OVER

Streets are utilized by many communities to quickly and efficiently transport victims to area hospitals. When you hear sirens, please pull over and wait for the emergency vehicles to pass.

**TIME SAVES LIVES.**
